CLAIMS:

1.   A device (100) for multimedia communication, comprising:
-   capture means (121) for capturing a sample (133) of a multimedia content (136);
-   processing means (122) for processing a message (134); and
-   control means (110) for controlling the capture means (121) and the processing means
    (122), such that the sample (133) is captured and added to the message (134) in
    response to a single activation (130) of the control means (110).

2.   A device (100) as claimed in claim 1, wherein the device (100) further
comprises
-   dispatching means (123) for dispatching the message (134) with the sample (133)
    added in response to the single activation (130).

3.   A device (100) as claimed in claim 1, wherein the capture means (121)
comprise a camera, and the sample (133) comprises a photo.

4.   A device (100) as claimed in claim 1, wherein the device (100) comprises a
mobile phone.

5.   A device (100) as claimed in claim 2, wherein the message (134) comprises a
command for controlling a communication session.

6.   A device (100) as claimed in claim 2, wherein the message (134) comprises an
invitation for a communication session.

7.   A method for multimedia communication, comprising the steps of:
-   capturing (132) a sample (133) of a multimedia content (136);
-   processing a message (134); and
-   activating (130) a single control (110) for capturing (132) the sample (133) and
    adding the sample (133) to the message (134).

8.   A method for multimedia communication as claimed in claim 7, wherein the step of activating (130) the single control (110) also dispatches (135) the message (134).

5   9.   A method as claimed in claim 8, wherein the message (134) comprises a command for controlling a communication session, the method further comprising the step of controlling the communication session in dependence upon the control command.

10.   A method as claimed in claim 8, wherein the message (134) comprises an
10   invitation for a communication session, the method further comprising the step of establishing the communication session in response to accepting the invitation.
